ABOUT ME

Motivated MERN Stack Developer with 6 months of internship experience in designing, developing, and managing responsive web applications. Skilled in front-end and back-end development using modern technologies. Strong ability to build APIs, handle user authentication, manage databases, and deliver clean, functional solutions.

TECHNICAL SKILLS

- **Frontend Languages:** HTML, CSS, Bootstrap, Javascript, React
- **Backend Languages:** Node.js, PHP
- **Databases:** MySQL, MongoDB
- **Other:** GitHub, Postman

PROJECTS

- **Community API |** GitHub
  - Developed a **Community API** using **Node.js and Express.js** following RESTful architecture.
  - Integrated **MongoDB** for dynamic data storage and database operations.
  - Designed API endpoints to efficiently handle data fetching and management.
  - Ensured smooth and reliable backend support for frontend integration.

- **DiseptGuard |(https://diseptguard.com/) |** GitHub
  - Designed and developed the **frontend using React.js**, creating a clean and user-friendly UI.
  - Built **RESTful APIs** for backend operations to manage and fetch dynamic data.
  - Integrated frontend with backend APIs to **display real-time data dynamically from the database**.
  - Used **MongoDB** for data storage and performed CRUD operations efficiently.
  - Implemented proper API calls to ensure smooth communication between frontend and backend.
  - Focused on **performance, scalability, and clean code structure** throughout the project.

EDUCATION

- **BSC(IT) | Bachelor of Science in Information Technology** (2022-2025)
  - Harivandana collage, Rajkot
- **MSC(IT) | Master of Science in Information Technology** (2025-2027)
  - Matrumandir collage, Rajkot

EXPERIENCE

Mern Stack Developer Intern (2025 - 2026)
MDIDM Infoway(6 Month)

- Developed and maintained full-stack web applications using **HTML, CSS, JavaScript, React, Node.js, Express, Laravel, PHP, MongoDB/MySQL**.
- Built and optimized RESTful APIs, improving data retrieval speed and application performance.
- Collaborated with senior developers using **Git/GitHub**, performing code reviews and managing pull requests.
